# Balearic quality of life is one of the highest in Spain

● 84% of people in the Balearics believe that they have a good quality of life, according to an opinion poll compiled by the European Union. See Full Report on Page ● **Three Inside Today.**

## Inside the Palma Convention Centre

Palma.—The Palma City Council opened the doors to the media yesterday to the controversial Palma Convention Centre which is under construction along the city sea-

front. The project is years behind schedule but the construction project is back on track and the builders say that the majority of the project is now complete. The Palma City

Council is now awaiting a judicial report into the construction of the convention centre to establish if the whole contract process was legally carried out.
