All the fun of the carnival: See Inside

## Underground car park given green light

**T**HE Palma Port Authority has given the green light to build a new underground car park in front of the fishermen's wharf along the Paseo Marítimo. The car park will cost in excess of 21 million

euros and will have a total of 460 places.

The contract to build it has gone out to public tender.

As a result of the new car park the present parking spaces in the area will be scrapped. Motorists

have long complained about a shortage of parking in this area especially during the summer months.

The Port Authority hopes to build a park area on the existing parking spaces.
