The big question is whether she is too big for the Port of Palma and will have to moor in the Bay.

- *HMS Queen Elizabeth* weighs in at 65,000 tons and she is carrying 17 F35 Stealth fighter jets along with numerous helicopters.
- She has been leading a Task Force to the Pacific and Indian Ocean which also consists of two Royal Navy destroyers, two frigates and two support vessels.
- The carrier is on her way home after a hugely successful three month deployment.

# BRITAIN'S BIGGEST EVER WARSHIP IS HEADING TO PALMA

● The aircraft carrier, *HMS Queen Elizabeth*, will be sailing to Palma this month for her first visit with 3,500 people on board. See Page 2-3
